	Examiner YEVEGENY VALENROD	Art Unit 1621	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 September 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

The following is a final office action in application # 10/530,572. This application has been transferred to Examiner Valenrod whose contact information is provided at the end of the instant document.

Rejection of claims 1-4, 7, 9, 17-18 is under 35 USC 102(b) is withdrawn in view of applicants' amendments.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Art Unit: 1621

Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lind et al (US 4,038,250 already of record).

Scope of prior art

Lind et al teach the following chiral phenol (table 2, column 9, No O)

Difference between prior art and instant claims

The instantly claimed compound differs from Lind et al. in the placement of the methyl and sec-butyl substituents in phenyl ring that is attached directly to the chiral group.

Obviousness

The compound of the instant claims and that of Lind et al are ring isomers. Lind et al describes his compounds as light protecting agents. One skilled in the art would expect the instant compounds to have similar physical properties based on the similarity between the structures.

“Compounds which differ only in the placement of substituents in a ring is not patentable absent unexpected results”. In re Jones, 162 F.2d 638, 74 USPQ 152 (CCPA 1947).

Allowable subject matter

Claims 1-3, 5-7, 9, 19-22, 24, 29, 31 and 42 are allowed. Closest art is Lind et al (see above). The allowed claims do not allow for alkyl substitution of the phenylene ring while the compounds of Lind et al require such substitution. Addition of alkyl groups to the phenylene ring is non-obvious and there is no motivation in the art to do so.

Objection to claims

Claims 14-18, 25, 30 and 32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Claim 4 is rejected

Claims 1-3, 5-7, 9, 19-22, 24, 29, 31 and 42 are allowed

Claims 14-18, 25, 30 and 32 are objected to

Claims 8, 10, 12, 34 and 35 are withdrawn.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1621

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
